

Living Things ▪ *Key Terms*

Key Terms

Use the clues to identify Key Terms from the chapter. Write the terms on the lines. Then find the words hidden in the puzzle and circle them. Words are across or up-and-down.

Clues

Change that produces a more complex organism

A trace of an ancient organism that has been preserved in rock

The maintenance of stable internal conditions

A dense area in a cell that contains nucleic acids

An organism whose cell lacks a nucleus

A group of organisms that can mate and produce offspring that can also mate and reproduce

Change in the surroundings that causes an organism to react

The scientific study of how living things are classified

The basic unit of structure and function in an organism
